Skills

- Ms Office
- GitHub, XAMPP, CDN, API
- Deployment: Netlify, Vercel, cPanel
- HTML, CSS, JavaScript, React,
- Adobe Photoshop, Illustrator, UI/UX Design

Muhammad Ismail - Full-Stack Web Developer & Graphic Designer

Professional Summary

I'm a Full-Stack Web Developer and Certified Graphic Designer with expertise in HTML, CSS, JavaScript, Bootstrap, React, PHP, SQL, and more. I design and develop clean, responsive websites and interfaces with a focus on both visual appeal and performance. I have worked with local and international clients to deliver projects ranging from portfolios to e-commerce stores.

From intuitive UI/UX to pixel-perfect layouts, I merge creativity with functionality to deliver seamless digital experiences. I've worked with both local (Pakistan) and international clients, completing diverse projects such as business websites, portfolios, dashboards, and e-commerce platforms.

Whether it's front-end development or crafting brand identities, I bring attention to detail, clean code practices, and a deep understanding of client goals.

Projects

1. E-commerce Store - Fully responsive store with admin panel and payment integration.
2. Portfolio Website - Personal portfolio showcasing skills, resume, and contact form.
3. React Dashboard - Analytics dashboard using React, Chart.js, and APIs.

Certificate

- Certified Graphic Designer (Photoshop, Illustrator, UI/UX)
- Web Development Training Certification
- MS Office Certified
